Email Id: ishita.sharma2599@gmail.com
LinkedIn: http://linkedin.com/in/ishita-sharma-117087339

Profile:

A dedicated and passionate Data Analyst with a strong background in data science and a Bachelor of Computer Applications in Data Science from Amrita Vishwa Vidyapeetham. I bring advanced knowledge in data visualization, statistical analysis, and predictive modeling to drive data-driven decision-making and solve complex business challenges. Aiming to contribute significantly in data analysis roles at leading organizations.

Education:

Course	Specialization	Institution	Board/University	Year of completion	CGPA / %
Bachelor of Computer Applications	Data Science	Amrita Vishwa Vidyapeetham, Bengaluru	Amrita Vishwa Vidyapeetham	2025	9.0/10
Schooling	Computer Science	Excel Public School, Mysuru	CBSE	2022	85%

Area of Interest:

- Data Analysis
- Data Visualization
- Machine Learning
- Business Intelligence
- Predictive modeling

Curricular / Co-curricular activities:

Projects:

• **Customer Churn Prediction** - Developed a machine learning model using Python and Scikit-learn to predict customer churn. (2022)

• **Retail Sales Dashboard** - Created an interactive Tableau dashboard for a leading retail brand,

visualizing sales data across multiple regions. (2022)

• **Sales Revenue Forecasting** - Built a forecasting model using Python to predict future sales revenue based on historical data. (2023)

Certifications:

- **IBM Data Science Professional Certificate (2022) -** Specialized in Python, SQL, and Data Visualization.
- **Oracle SQL and Data Management (2022) -** Expert in database creation, management, and analysis.
- **Harvard Online: Introduction to Machine Learning (2023) -** Learned predictive modeling and advanced analytics techniques.
- **Tableau Data Visualization Specialist (2023) -** Proficient in creating dynamic and interactive dashboards.
- **Google Data Analytics Certificate (2023) -** Comprehensive training in data cleaning, analysis, and visualization.
- **Python for Data Science (2023**) – IBM Advanced programming and data manipulation skills.

Internship Experience:

Data Analyst Intern
Company: *Infosys | June 2025 - Present*

Description: Developed predictive models using Python to forecast sales trends. Designed interactive dashboards with Power BI, improving data visualization and decision-making processes for the sales team.

Skill sets:

Professional Skills: Analytical thinking, Problem-solving, Effective communication, Collaboration.

Technical Skills:

- Programming Languages: Python, SQL
- Data Analysis Tools: Power BI, Tableau
- Machine Learning Frameworks: Scikit-learn
- Database Management: Oracle SQL
- Predictive analysis and statistical analysis

Personal Skills: Adaptability, Leadership, Initiative, Creativity

Extra-curricular activities:

- Participated in inter-college tech and cultural festivals.
- Wrote articles and blogs on data science topics.
- Member of the university's literary club.

Achievements:

- Awarded Best Outgoing Student at Amrita Vishwa Vidyapeetham for outstanding academic and extracurricular achievements.
- Achieved 95% accuracy in predictive models during my internship at Infosys.
- Reduced reporting time by 30% through innovative dashboard designs.

Community Service:

- Volunteered in local tech workshops to teach underprivileged children basic computer skills.
- Participated in tree plantation and cleanup drives.

Languages known:
- English
- Kannada
- Hindi

Interests:

- Exploring new technologies
- Blogging about data science trends
- Painting
- Reading tech articles

Personal Details:

Date of Birth: 21 June 2004

Address: #44, 1st stage Vijayanagar, Mysore.
